

A series of orange silhouettes of people in business attire, with one larger silhouette on the right side, possibly representing a team or a new hire.

We are very pleased to announce that Mr. Christian Stoff has joined Digatron Aachen as Software specialist, starting work from 1st October 2006.

His duties include:

- Software and system tests of finished products
- Analysis of problems reported by customers
- Software-related after sales support
- Organizing and accomplishing software-related seminars and trainings

**Christian Stoff, Development**

Christian Stoff was born 24th July 1975 in Aachen. He is a skilled IT specialist with focus on systems integration.

Already during his training he has been responsible for fundamental trainings for the service teams of the Deutsche Telekom AG. After finishing his education he worked as a service agent in the first level support center of the Deutsche Telekom AG.

Thereafter he changed to MAXDATA Systems GmbH, where he could gain well founded experiences in the field of component and software tests which will now be beneficial for his work at Digatron.
