RALF BÜNDGEN
jobs@digatron.de

Digatron opens the way to electric mobility with intelligent test systems and computer-controlled equipment for research, production and quality assurance of battery systems. Through our test equipment and systems, we enable the world's leading development labs and manufacturers to produce and optimize today's and tomorrow's energy storage systems.

With locations in Germany, USA, China, India and Italy, around 320 colleagues support the trend towards ever more powerful battery systems from very small to very large scale.

WE OFFER YOU

- a responsible position in a very successful and growing company
- a permanent employment contract
- flexible working hours (37.5 hours/week)
- mobile work
- 30 days of vacation
- an individual training and further education offer

YOUR TASKS

- technical and disciplinary responsibility for a team of approx. 6 people
- definition of goals for the team in coordination with the department management
- management of IT projects in the application area (C++ and C#)
- strategic further development
- analysis, re-evaluation and optimization of existing business processes

YOUR QUALIFICATIONS

- completed studies in computer science, electrical engineering or comparable education
- several years of experience in software development of Windows applications
- sound experience in the further development of complex IT applications
- experience in building and organizing teams

Please send us your application documents including your salary requirements and your earliest possible starting date by e-mail to jobs@digatron.de. If you have any questions, please do not hesitate to contact Mr. Ralf Bündgen at +49-241-16809-858 or the above-mentioned e-mail address. You can find more exciting jobs at www.digatron.de
